

Resto Piazza - Restaurant Website with Joomla

Contributed by Graphic Design
Thursday, 21 January 2010

TemplatePlazza Premium Joomla Template
Template Name: Resto | For Joomla 1.5.x

Live Demo{mosloadposition image}

Resto Piazza template with TPResto component, was made for you to build a comprehensive restaurant system, where people can vote, comment, and even order online (requires a VirtueMart component installed)

The component will also provide a hierarchy for your menu items, where you can group them based by their category and group. You can even specify different menus for different branches of restaurants! And like every other TemplatePlazza releases, Resto Piazza is also equipped with extra extensions included with the package!!!

google_ad_client = "pub-0734496309118280"; /* 468x60, 09-12-13 */ google_ad_slot = "1684688852"; google_ad_width = 468; google_ad_height = 60;

Needless to say, this is your ultimate solution for Restaurant menu creation! Give this package a test drive in our live demo, and then grab it in our download section! Oh, by the way, you need to be a member of TemplatePlazza in order to download. So what are you waiting for already, be our member and make your own Ultimate Restaurant Solution with Resto Piazza!!!

Resto Full Package (15.68 MB)
