Shape5 Premium Joomla Template
Template Name: Clarity | For Joomla 1.5.x

Live Demo {mosloadposition image}

Clarity is a generic style template that can be used for any type of site, business, ecommerce, etc. The release of Clarity brings the introduction of images in the S5 menu and dynamic module positions. The second release that takes the spotlight of this template is the NEW S5 Image Slider. Great for displaying your products that you have available on a eCommerce or even non eCommerce site as Clarity. We also have included the S5 Box and edited versions of the S5 News Display and S5 Tab show.

google_ad_client = "pub-0734496309118280"; /* 468x60, 09-12-13 */ google_ad_slot = "1684688852"; google_ad_width = 468; google_ad_height = 60; Features:

 22. bottom_row_5
 23. breadcrumbs
 24. footer1
 25. footer2
 26. footer3
 27. footer4
 28. debug
- Menu Styles:

Suckerfish Menu:

This menu is a Suckerfish menu system and is disabled by default but if you prefer to enable it you can set the menu to 'Suckerfish' in the 'Template Configuration'. In Joomla 1.5 will have the option in the template parameters.

S5 Menus:

Choose between either jQuery or the S5 Effects Javascript scripts to power the menu systems. jQuery is running in no conflict mode so you shouldn't experience any script conflicts but if you do just switch to the S5 Effects option. This will make ensure your modules and components won't cause any conflicts using the menu system. Just mouse over the top menu in the demo and you will notice the suckerfish menu smoothly expand in, fade in or drop in depending on the demo you are viewing.

Don't want this fancy menu? Not a problem, you can switch to the standard suckerfish menu system in the template configuration or completely hide the menu altogether.
